## MEDICAL CARE

The Village Sleep Lab provides state of the art evaluation and treatment of sleep disorders in a caring environment in order to improve the quality of life of the community that we serve.

## COMMUNITY EDUCATION

The center also provides educational opportunities for patients, support groups, physicians, health providers, and the community to increase awareness of sleep disorders and their diagnosis and management.

## EXCELLENCE IN SERVICE

We believe that health care providers should take the time to listen intently to what patients say about the nature of their problems as well as their expectations for diagnosis and treatment. This process foments effective communication and teamwork between patient and provider.

## RECEPTION

Our patients are set at ease from the moment they enter our cozy, home styled reception area.

## TESTING ROOMS

We offer spacious comfortable and cozy testing rooms. In the morning we offer a continental style breakfast to our patients.

## PERSONAL ATTENTION

Dr. Juan Albino personally reviews the patient's clinical data to ensure accurate data collection and interpretation. This process assures that each patient receives exceptional quality medical care.

## CPAP TREATMENT

Our Sleep Technologist apply CPAP masks, the common form of treatment for Sleep Apnea. Our Lab has a variety of CPAP masks available for your comfort.

## ACCREDITATION & CERTIFICATIONS

The Village Sleep Lab strives to provide the highest quality medical care: we have a sleep center that is fully accredited by the American Academy of Sleep Medicine; we have a medical director that is Board Certified in Sleep Medicine, and we have a technical director and polysomnography technologists that are registered by the American Association of Sleep Technologists.
